# GEM® RiderX™
THE SMARTER WAY TO MOVE

GEM

THE GEM® RIDERX™ APP is a **FREE** downloadable interactive app designed by Polaris®.

With the RiderX™ app, users can:

- Use GPS mapping with highlighted LSV available roads to know where it is safe to travel
- Record routes to easily navigate back in the future
- Display common waypoints like gas stations and restaurants
- Create waypoints for frequented places of interest
- View local weather
- Record and track maintenance records

The map is available for use on Apple and Android smartphones and tablets (iOS version 8.3 and above, Android 4.3 and above)

THE POLARIS® LINK integrates with GEM® vehicles and the RiderX™ app to communicate key vehicle performance parameters, such as:

- Distance Remaining (range from most efficient, least efficient, and average vehicle consumption)
- Efficiency (based on average vehicle use)
- Charging Time Remaining
- Charging Status
- Cost per Mile
- Charging Cycles
- Fault Codes
- Battery State of Health
- Energy Used (cumulative)
- Manual Entry for Maintenance Records

To use the LINK, order the Polaris® LINK part number 2879855 at Gemcar.com, then simply plug it into the pre-wired harness under the hood.

The Polaris® LINK is compatible with 2016 GEM® models only

For more information regarding RiderX™ visit RiderX.com, or to download the FREE app visit the App Store® or Google Play® store on your phone or tablet by searching "Polaris GEM".
